PROFESSIONAL SUMMARY

Senior Information Systems student at the University of Bahrain with a strong foundation in web development, mobile applications, and database management. Experienced in using modern tools to design and develop data-driven applications, with a good understanding of UI/UX and security fundamentals. I am highly interested in the PC and gaming systems sector, including hardware and system performance. Seeking an internship or entry-level opportunity to apply technical skills and gain practical experience.

Education

B.SC Science in Information System

Sep 2021 - Excepted June 2026

University of Bahrain , Zallaq

High School

Sep 2018 - June 2021

Al -Jabriya Secondary Industrial School

Projects

Senior Project:

Developed the AWN mobile application as part of a team-based senior project. Contributed to UI/UX design using Figma, cross-platform mobile development with FlutterFlow, and backend implementation using Supabase, including authentication, database management, and row-level security. Collaborated with team members to integrate donation, volunteering, and campaign management features into a unified platform.

Skills

- **Application Development:** Development of mobile and web applications using low-code platforms and backend technologies.
- **Database & Backend Systems:** Understanding of database structures, authentication workflows, and secure data handling.
- **UI/UX & Product Design:** Designing user-friendly interfaces, Figma, and prototypes with usability focus.
- **Cybersecurity Knowledge:** Knowledge of access control, encryption basics, and secure system design principles.
- **Networking Awareness:** Familiarity with networking fundamentals and system connectivity concepts (NVIDIA coursework).
